

SUTPHEN MINI-PUMPER PROGRAM

What is a mini- pumper?
What “Should” a mini-pumper be?

Should we offer a program mini pumper, or fully customizable?

What should a mini-pumper cost?

**Are different body materials acceptable?
How many standard body choices would
be acceptable?**

Are cost cutting construction methods and/or “lesser” components acceptable?

Is a 12 month lead time acceptable for this product?
