

Q2B MOUNTING LOCATIONS

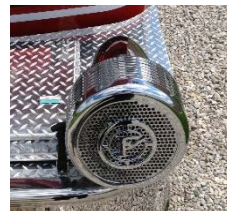

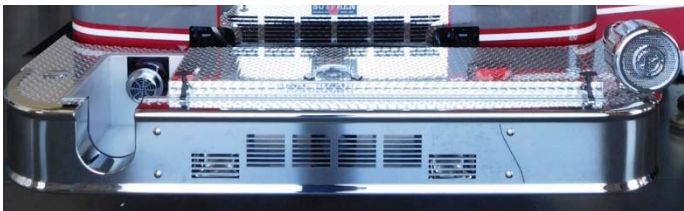

OVERVIEW

With the recent update to the configurator. The Sales Department would like to clarify the mounting locations for the Q2B. The previous grille mount option will no longer refer to a "flush" mount, the previous option for "recessed in bumper" will read "front bumper mount", and there is a new option for a "flush bumper mount". The options are depicted below for future reference.

12710100 SIREN, FEDERAL Q2B, GRILLE MOUNT

12710200 SIREN, FEDERAL Q2B, PEDESTAL MOUNT

12710300 SIREN, FEDERAL Q2B, FRONT BUMPER MOUNT

12710400 SIREN, FEDERAL Q2B, FLUSH BUMPER MOUNT

The Sales Department hopes this adds clarity to these options. If you have any other questions please feel free to contact your Sales Territory Manager.
