

## LIGHTING OPTIONS

### OVERVIEW

With the current SQS2 update, several new lighting options have been updated in the areas of the cab step wells, pump panel lighting, bumper trough lighting, compartment lighting, hosebed lighting, exterior body step lighting and undercarriage lighting. The Sales Department would like to provide reference photos for these area to help clarify the new options. The product images referenced below vary in length based on location. Please note that not all options are available in every location or on every product. Please contact your Sales Territory Manager for further clarification.
