

SPH AERIAL HANDRAIL OPTIONS

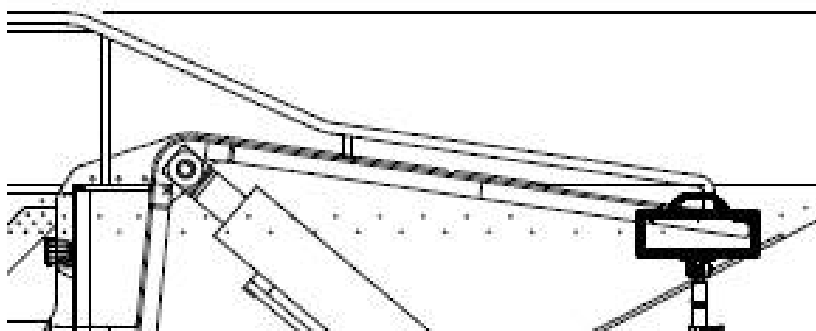

OVERVIEW

The Sales Department would like to inform the dealer network that we have updated the standard description as well as added additional aerial handrail options in SQS2.

The new options reference what has been installed on previous SPH 100 configurations, will add additional clarity to future SPH 100 orders and will create sales opportunities for all dealerships. Please refer to the images below.

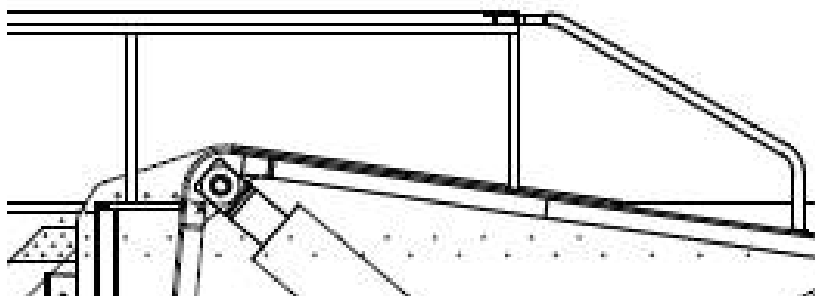

94021326 (Standard)
