

SL75, SP70 & SA75 R2 DOOR MATERIAL

The Sales Department would like to inform the dealer network of a design change to the R2 door on the SL75, SP70 and SA75.

Previously, on the SAA-3 and SAA-4 bodies styles, a carbon fiber drop down door was provided for the R2 compartment. Due to supplier issues, we are no longer able to offer a carbon fiber door.

Moving forward, all trucks with these two bodies styles will have an aluminum drop-down door for the R2 compartment. If the rest of the doors on the body are upgraded to stainless steel, this door will remain aluminum to reduce the weight of the drop-down door.

Carbon Fiber R2 (Obsolete)

Aluminum R2 Door
