

## DISCONTINUED GOODYEAR TIRES

### OVERVIEW

Sutphen has been notified that Goodyear will be discontinuing the production of the 425/65R22.5 G296 tire. This tire will be replaced with the Armor Max MSA model.

We are currently working with Goodyear to determine when the new Armor Max MSA tires will be available and delivered. We were told the new tires would to be released this quarter, but right now Goodyear is estimating they will not be available until 2022. Please be patient with us as we work with our supplier to obtain the new Armor Max MSA tire.

In the meantime, Michelin has made no indication of any shortages. So, the short-term replacements for the 425 G296 tire will be a Michelin tire, not Goodyear. In order to have a matching set of tires around the truck. The rear tires will be replaced with like Michelin tires. There is not a price increase or discount for the brief switch to Michelin tires. Please reference the chart below for the current direct tire replacements. We apologize for any inconvenience this may cause at this time.
