

## KUSSMAUL SHORELINE CHARGER UPDATE

### OVERVIEW

The Sales Department would like to inform the dealer network that Kussmaul has decided to phase out the production of the LPC40 shoreline charger. Sutphen has not been given a date on which production will stop, but we are told this will be phased out by the end of 2022.

Kussmaul has since been manufacturing a new shoreline charger call the Chief. With the most recent update with SQS2. The LPC40 has been removed and replaced with the Chief charger. If you have any questions, please contact your STM, Project Manager, Project Coordinator, or Project Engineer.
